October 11, 2015

Taken from the **INDIA MISSIONS** Newsletter:

There are more members of the churches of Christ in India—& more Gospel preachers—than in any other nation (about 25,000 preachers work with our team). We estimate that India has at least 100,000 congregations of the Lord's church, due (at least in part) to her huge population. Only China has more people than India. India should pass China in population in the next few years, if it has not already done so.

India has 600,000 villages with a population of 5,000 or less—many of those villages have less than 1,000 people. India probably has more cities of 1 million plus population (in metro areas) than any other country. And most visitors to India would agree that this land is home to the most spiritually-minded people anywhere. India has become the epicenter of the New Testament church & Christianity.

Since all these things are true, it is vitally important to realize that we have unparalleled opportunities in India as no place else in the world today. We need your help to get the Gospel to those who are interested in hearing. Please send any gift you can today to either of these addresses:
